How do I transfer a domain name to another registrar?

To transfer a domain name to another (non-brownrice) registrar you'll need to:

1. Ensure your current balance due to Brownrice is paid.
2. Login to https://dashboard.brownrice.com
3. Click **Domains ->** yourdomainname.com **Manage -> Transfer**
4. Ensure that you have access to the email address that the EPP/Transfer key will be mailed to, then click **Request Transfer Key**
5. Check the email address that the EPP/Transfer key is emailed to
6. Work with your new registrar for the final steps.
